

ОКСИЛИН 300 LA 10 мл

Серия: 20261115C

Годен до: 11.2029

40 уп × 10 фл = 400 фл

РУ № KG 1669

Хранить в сухом, тёмном и недоступном для детей месте при температуре от 0 до 30 °С.

Только для применения в ветеринарии

Outer carton label — specification (order TQ20260924C)

Size:

A5 landscape, 210 × 148 mm (labels are 1:1). Paper label glued on the carton. All text in Russian. Keep the printed carton design as it is (handling marks, weight, size, manufacturer, distributor) — that is why the label has no manufacturer/distributor lines.

Placement:

The carton has two printed sides and two blank sides. Put one label on EACH blank side (two labels per carton), centered.

Content:

1. VETOP logo (original proportions). 2. Product name and package size — the largest text. 3. «Серия:» batch number. 4. «Годен до:» expiry (MM.YYYY). 5. Quantity per carton. 6. «ПУ № KG ...» — Kyrgyz registration certificate number of the product. 7. Storage conditions. 8. Carton QR code. Small line «Только для применения в ветеринарии».

QR code:

Use the CARTON code from archive QR_TQ20260924C_BOXES (file name ends with _K), one code per product/batch — it is already placed on each label in the file. Minimum 40 × 40 mm, black on white, keep the white margin, do not redraw or stretch. Do NOT use the bottle code (archive QR_TQ20260924C_VETOP) on the carton.

Font sizes:

product name up to 55 pt, package size 48 pt, batch / expiry 20 pt, registration 16 pt, storage 11 pt.

Before printing:

send us the artwork of each label and a photo of one test print — we will scan and confirm.
